Technical Skills

Languages: HTML, CSS, JavaScript, TypeScript, Python

Frameworks/Libraries: React.js, Next.js, React Native, Node.js, Express.js, Tailwind CSS, Shadcn UI

Databases/Backend: Firebase, MongoDB, Supabase

Version Control: Git, GitHub

Developer Tools: VS Code, Replit, Claude Code, Codex, Google AI Studio, Aura Build, Antigravity

Experience

Static Consultancy

May 2024 – Jan 2025

Full Stack Developer

Remote

- Developed and deployed scalable full-stack web applications using React.js, Next.js, Node.js, Express.js, and MongoDB, improving application performance and responsiveness.
- Built modern and responsive user interfaces using Tailwind CSS and shadcn/ui, enhancing user experience and maintaining consistent frontend design across projects.
- Integrated Firebase and Supabase for authentication, real-time database operations, cloud storage, and backend service management across multiple applications.
- Collaborated with development teams using Git and GitHub, optimized REST APIs, resolved production-level issues, and maintained scalable and production-ready codebases.

Hyperdigitech

Sep 2025 – Feb 2026

Backend Developer

Remote

- Designed and developed scalable backend architectures and RESTful APIs using Node.js, Express.js, and MongoDB to support high-performance web applications.
- Implemented secure authentication, authorization, and database management systems while optimizing server-side logic for reliability and efficiency.
- Integrated Firebase and Supabase services for real-time data synchronization, cloud storage, and backend infrastructure management across multiple projects.
- Collaborated with cross-functional teams using Git and GitHub, optimized API performance, resolved production-level issues, and maintained clean and scalable backend codebases.

Education

Lakshya Institute of Technology

2023 – 2026

Bachelor of Computer Applications (BCA) **CGPA: 8.52**

Bhubaneswar, Odisha

Stewart Science College

2021 – 2023

Higher Secondary Education (Science) **Percentage: 71.67%**

Cuttack, Odisha

Saraswati Sishu Vidya Mandir

2020 – 2021

Matriculation (10th) **Percentage: 77.17%**

Cuttack, Odisha

Projects

Visione Academy Educational Platform | Next.js, React.js, Node.js, Express.js, MongoDB, Firebase

2025

- Developed a scalable full-stack educational platform supporting 500+ students with secure authentication, role-based access control, and real-time database management.
- Built interactive student dashboards for entrance exam preparation, result analysis, performance tracking, and real-time leaderboard monitoring to improve student engagement and accessibility.
- Designed and implemented an admin management system to manage student records, analyze academic performance, monitor leaderboard data, and streamline platform operations efficiently.

UIVault – CLI Powered React UI Library | React.js, Node.js, TypeScript, GitHub

2025 – Present

- Developed a CLI-powered React UI library featuring 15+ reusable and themeable components with support for both JSX and TSX integration.
- Engineered modular and scalable component architecture with plug-and-play CLI commands, improving developer workflow efficiency by 40% and reducing integration time.
- Optimized package structure, component reusability, and developer experience, contributing to 11,000+ npm downloads and increased adoption among frontend developers.

Student Management ERP System | *React.js, Node.js, Express.js, MongoDB, Firebase*

2025

- Developed a full-stack Student Management ERP system to manage student records, attendance tracking, assignment management, and academic performance monitoring.
- Built secure role-based dashboards for administrators, teachers, and students with real-time access to attendance reports, marks history, and performance analytics.
- Integrated Firebase and MongoDB for authentication, real-time database synchronization, and scalable backend operations while optimizing system performance and usability.

FormHub – Dynamic Form Management Platform | *Next.js, React.js, Node.js, MongoDB, Firebase*

2025

- Developed a full-stack form management platform used by 10+ active users for creating, managing, and sharing dynamic forms with secure response handling.
- Built responsive dashboards with real-time submission tracking, form analytics, and role-based access control, improving workflow efficiency and user experience.
- Integrated Firebase and MongoDB for secure authentication, cloud data storage, and scalable backend operations while optimizing application performance and responsiveness.

Awards & Certifications

- Secured **1st Position** in the College Hackathon for developing an innovative full-stack web application and delivering an impactful technical solution.
- Won the **Project Expo Competition** for designing and presenting a scalable, user-centric software project with strong technical implementation.
- Recognized as a **Hackathon Winner** for excellence in problem-solving, rapid application development, and effective team collaboration under competitive environments.
- **JavaScript (Intermediate), CSS (Basic)** – HackerRank (2024)
Certified in JavaScript fundamentals, responsive web design, frontend development, and programming problem-solving concepts.
